

Vista Configuration

- 1) Click ***Start*** then ***Connect To*** then ***“Set up a connection or network”*** (or from ***Control Panel*** click ***Network and Sharing Center*** then click on ***“Set up a connection or network”***).

- 2) Create a new connection, click on ***“Set up a dial-up connection”***.

- 3) Enter the ***Phone Number***

- 4) Enter your RollaNet ***User Name and Password***.

- 5) Type ***Connection name*** of your ISP (RollaNet).

- 6) Click the ***Connect*** button ***to save the connection***. This will initiate a “Test” of the connection. There will be a “Skip” button you can use to skip the connection test.

- 7) Click ***“Set up the connection anyway”***.
