Lets Take a Moment--

We are rapidly approaching the last of the Twentieth Century.

A century in which our ASSOCIATION was founded by Melvin Jones, a period of time when the Radio made way for Television, the Automobile with more power than a hundred teams of horses, the Two Wing Airplane converted into the Jet and a MAN ON THE MOON.

Midway during this period of time, we found a LIONS CLUB at nearly every crossroads where there was a gasoline station or a general store. Now most of these have giving away to the superhighways and convenience stores.

No longer do we have the fast communication of the backyard clothes line as these too have given away to the computers and fax machines. We are beginning to lose touch with our neighbors for they too may both be working and traveling fifty miles to work and sometimes in opposite directions.

During all this time, the LIONS in many communities have been the backbone of the local government, the school board, the Chamber of Commerce or whatever.

We in America have been blessed with such advancements and must adopt a long range program to continue re-building our membership and the needs of our communities and help those individuals who can not help themselves.

We ask each and every LIONS CLUB and each MEMBER to adopt this new LONG RANGE PROGRAM. Build it brick by brick and by the turn of this century we will have a wall of LIONISM GREATER than the IRON CURTAIN ever was a few years ago.

We all live in a credit card world, but you can not build with it, it takes that personal touch, so go out and touch someone each day-for LIONISM.
